RE: Letter of Recommendation

To whom it may concern,

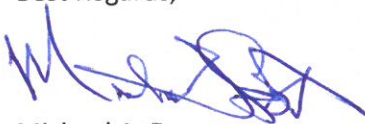

We have worked with The Sack Company for several years and have found them to be a very knowledgeable, reliable and responsive whenever we required a good industrial partner. We no longer consider them to be just a subcontractor on our project sites, but a partner. We involve them early as the majority of these industrial projects have been of the design/build nature. Since these are all multi-million dollar projects, it is imperative we work as a collaborative TEAM.

We depend on them for all their expertise with regard to all the major trades, i.e. -electrical, plumbing, and HVAC, as well as the millwright, rigging and piping trades. The Sack Company is also very customer oriented on our projects making sure the overall project is a success and make our job easier based on their experience in all these aforementioned trades.

They perform all their work in a safe and timely manner, and do all they can to finish on time, all the time! We would not hesitate in using The Sack Company for all of our future projects and would highly recommend them to anyone if asked.

Please feel free to call me if you would like to discuss this further.

Best Regards,

Michael A. Fox
